GUI interface	
• Interacts With user	• Framework

Database Interface	
• Stores IR codes • Stores Command Sequences	• Framework • IR code

Frame Work	
• Executes Use Cases	• GUI interface • IR database • Arduino Interface

Arduino Interface Hardware Interface	
• Activates IR module • Sends and receives codes, returning success or failure	• Framework • IR code

Interface Code IR code	
• Hold Data code and device for command	• Arduino interface

IR Code	Code
• Stores IR codes	• Database • Arduino inteface

Hardware Interface	
Interface	
	Arduino Interface
• Interacts with hardware • Sends and receives Code
